QUERY ?

Are you coming, gentle spring?
You old dilator!

Have played the very dickens with
my early season's trade,
All my handsome little Fies,
My most fashionable styles,
A drag upon the market with your
zero in the shade.
You sent blizzards, gentle spring,
Wild nor-westers, wing and wing,
In the almanac conceded that the

balmy breeze should show,
 And my hats remained unsold,
 And my bank account grew cold,
 descended with the mercury to zero
 and below.
 Make the running, gentle spring,
 Come to Belleville soon and cling,
 I accord thee hearty welcome, tardy
 daughter of the Sun,
 Come, rest here

Place yulle torpid subjects rouse,
I'll take back all the billingsgate
these poor vermin spawn.

RAILWAY ACCIDENT.

A Yard Man's Fearful Experience Under the Wheels.

A Narrow Escape from Instant Death.

Yesterday afternoon about 4 o'clock, Jas. Cummins, a yard man at the Grand Trunk depot, had a narrow escape from instant death. He was standing in making up a freight train for the east. The cars were in the east end of the yard, near where the injured man lives. His five-year-old son was looking on, and finally ventured on the tracks. When Cummins noticed him he was standing on the track, and a car which had been shunted was approaching rapidly. The father acted on the first impulse, and sprang forward to the child's rescue. The little fellow was saved, but the man was struck and knocked down. His body fell outside the rail, but he was not altogether out of the reach of the car. His head and shoulders must have been on the rail, for the brake beam struck his head and dragged him along the track for some 30 feet. All this time the car wheel was grinding and tearing at the body of the man, wearing into the flesh and muscles. At first it was reported that he was dead. Mr. D. Gunn, station master, had him taken as comfortable as possible, and summoned medical aid. The examination it was found that Cummins had two scalp wounds, and that the muscles of the arm where the wheel had been turning were worn in two. It is feared that the shoulder blade may be fractured. Drs. Gunn, Wilson and Tracy were called. Dr. Gibson says there is a chance for his recovery on account of his good constitution. The injured man is about 30 years of age, married and has a family of three or four children. He has been in the employ of the railway company for about 8 years, was steady, industrious and highly respected.

Amusement.

Salisbury's Troubadours are old favorites at the capital, the well filled house which greeted their re-appearance at the Grand last night being a merited tribute to their popularity. "The Humming Bird" is the title of their new song, and the introduction of some clever specialties to the long loving public. It can hardly be called a play, notwithstanding it boasts of a plot, the evolutions of whose intricacies the pieces is mainly dependent. But this is apparently no drawback when the object is to amuse, and that the Troubadours succeeded in attested by the vigor of the applause and frequency of the recalls which greeted almost every appearance of the principles in their favorite roles. —*Official Free Press.*

The Troubadours will appear at the Opera House here on Saturday night.

Local Legal.

Toronto, April 6.
HONOR COURT OF JUSTICE.—JAMES R. GILGOUR, Esq.,
Before Boyd, C.

Re Gaborine, Casey v. Gaborine.
Judgment, April 6, 1887.

From the Master of the Master at Belleville allowed with costs. Sherry (Belleville) and F.W. Harcourt for the appellants, who are defendants. O'Brien (Belleville) for the defendants. Langton, for plaintiff respondent.

Lunatics in the County Gaol.

Mary Ramsey, of the Township of Duncan, committed by Magistrate Rawdon and Faulkner to a lunatic asylum at Belleville brought here yesterday and incarcerated in the gaol. This makes four females and two male lunatics confined in our gaol. How long will it be before our Government at Toronto, with its boasted surplus, provides suitable accommodation for this class of unfortunate.

An Apology.

To the hundreds that we were unable to send goods to on Saturday, we have to apologize. The sale continues 30 days and we must close out the whole stock of hats and furs in time. Come again and you will get what you want. LARSEN & MEYERS.

The Trenton Fire.

The damages by the Trenton fire on Tuesday, are estimated at \$5,000. Graham & Reid, dry goods, R. P. Fidler, grocer, and Daly's hotel and the hotel houses, Summer and Quinn, being the heaviest losses. The losses are covered by insurance.

Oratorio of Ruth.

Owing to the excellent acoustics, the property of the Holy Trinity Church, it is proposed to presume that the above work will be rendered in a more satisfactory manner (if possible) than in Bridge St. Church. Don't forget the date, April 14th.

Stow Office.

The Trenton Post Office officials are evidently negligent of their duty. Manuscripts for the *Intelligencer* office are mailed there at 9 a.m. yesterday and did not reach the office here until this morning.

Setting the Fashions.

R. A. Barber & Co., of Trenton, are setting the fashions in millinery in that town. They had their spring opening yesterday, giving a very creditable display of the latest millinery fashions.

Bringing Him Home.

It is expected that Mr. C. F. Gilderesque of Kingston, will arrive here to-night with the remains of the late Mr. Geo. Herlihy, which will be interred here to-morrow. Funeral at 2.30 p.m.

Good Friday.

To-morrow being Good Friday and a public holiday, the publication of the *Intelligencer* will be suspended for that day. The day will be generally observed in this city.

TRENTON ENTERPRISE!

An Inspection of Gilmour & Co's Milling Property.

THE TRENT WATER POWER.—THE BEST IN THE PROVINCE.

THE GROWTH OF THE TOWN SINCE INCORPORATION.

Substantial Improvements in the Business Centre in the Last Two Years.

Religious and Educational Institutions well represented.

Trenton, incorporated as a town in 1861, with a population of 3,042, a property valuation of \$400,540 and a rate of 23 mills on the dollar, has been advancing with rapid strides. Situated at the mouth of the Trent river, with a never failing water power at the back of it, and at the head of the bay of Quinte, it has advantages which must excite the envy of less favored places. In 1883 an official census of the town was taken, showing the population to be 4,224, an increase of nearly 1,200 in two years. In the year 1886, according to

WATER POWER DAM AND RAILWAY BRIDGE.

the assessor's returns, the number of inhabitants was shown to be about 5,000, and the place is still growing.

THE VALUATION OF PROPERTY in 1885 was \$787,500 with a rate of 11 mills on the dollar for municipal purposes, and 14 mills for school purposes. The receipts were \$28,772.47, expenditures \$20,202.03. In 1886 the valuation was \$902,405, rate 13 mills for corporation purposes, and 14 mills for school purposes. The receipts were \$30,841.01, expenditures \$74,432.50. The sinking fund \$2,450, debt \$25,000; \$2,000 maturing in April 1887, \$10,000 maturing in Dec. 1888, and \$23,000 maturing in Dec. 1908. The floating debt is \$51,797.28, less \$19,435.97 in cash and outstanding debts, leaving a total debt on the town of \$67,353.31, at 4 per cent interest.

The principal industry of the place is the lumbering industry, under the management of David Gilmour, Esq. The property owned by him and utilized for lumbering purposes lies along the east bank of the Trent river and extends north from the shore of the bay of Quinte to the Grand Trunk railway tracks, a distance of two miles or upwards. At the mouth of the river, and on the bay shore, where there is ample dockage, are located the lumber mill, lumber mill and shingle mill, machine shops, engine houses and fire department sheds. The lumber mill, commonly called the "Big Mill," has a capacity of 300,000 feet of such and inch and a half lumber per 10 hours, cut by gang and circular saws. The timber mill turns out 50,000 feet of ordered stuff daily for lumber, and the shingle mill equipped with the best machinery, cuts 125,000 shingles per day. 800 men are employed in these mills. Mr. Gilmour has a complete

LINE OF RAILWAY running the entire length of his property, through his lumber yard. These yards have storage capacity for 400,000 feet of lumber. The railway has connection with the Grand Trunk and Central Ontario railways. By the use of the yard engine engine cars are brought from either of the remote mentioned, loaded in the yard and returned to the railway company ready for shipment.

The big mill is driven by a 1,000 horse power engine, steam for which is generated by 10 boilers. A 250 H. P. engine drives the shingle mill. Connected with the mills is a

CONCRETE RIVER SYSTEM. A commodious brick fire shed has been erected at the water's edge, between the two largest mills, with stables, engine room and quarters for the men. The fire company is composed of 25 uniformed men. They have charge of an Amosking steam fire engine, purchased in New Hampshire at a cost of \$6,000. Besides the steam engine there is a force pump in the engine house connected with a 12 inch pipe which leads around the different mills and through the yards. This pump can throw 15,000 gallons per minute. There are 10 hydrants outside the mills and 18 inside. An electric fire alarm system, 16 bells, connects the several principal parts of the mill with the fire department. The fire company is organized into what is known as the Gilmour fire company band. At the north end of the property, near the new dam, is situated

THE LEAVING MILL. This structure is run by water power. At present it has four runners of the latest and best make. There is room in the building for five more. The mill is in the building for the remainder of the late Mr. Geo. Herlihy, which will be interred here to-morrow. Funeral at 2.30 p.m.

The combined mills manufacture all that is necessary for the construction of a house, except sashes, blinds and doors.

At the head waters of the Moira and Ottawa rivers there are an exhaustless timber limits. The Central Ontario Railway also taps one of the Company's limits.

The equipment of the premises are complete in every respect. The mills are the best of the kind in the world and far superior to those in the great lumbering State of Michigan.

THE TRENTON WATER POWER. Trenton is one of the great water powers in Ontario. Just below the Grand Trunk railway bridge over the River Trent,

and within the corporate limits of the town, a substantial dam has recently been constructed at a cost of not less than \$70,000. The work was done under contract by Gilmour and Co., for the town, each expending half that sum. The dam gives a head of 17 feet. The supply of water is almost inexhaustible. To half of this power, on the west side of the river, the town has an absolute right. A large flume will pass through their water lots. It is the intention of the corporation to utilize a portion of the power for water works, and the remainder to be offered to manufacturers on advantage, on terms to be located there and establish various industries.

Over the dam is constructed a railway and trestle bridge, which is now in daily use by Gilmour & Co., who run cars over it and from their mills to connect with the Grand Trunk railway. All manufacturers who purchase water power will be entitled to the use of the bridge. It is said to be the intention of the town corporation to use a portion of the power as a motor for electric light, with the view of lighting the streets by electricity and for the present to refer to consumers. The prospect that Trenton will eventually become a great manufacturing centre are most encouraging.

L. N. Benjamin, Q. C.

His Death After Two Months' Suffering—

Sketch of His Life.

The Montreal Star says, in its issue

After two months of suffering, borne

with the most patient heroism and pluck,

Mr. L. N. Benjamin, Q. C., passed into rest

at his residence, 90 Mackay St.,

six weeks ago his medical advisers informed

him that there was no hope of recovery for

him.

The immediate cause of death was dropsy

induced by hæmorrhage of the heart,

by the rupture of one of the valves.

Mr. Benjamin had been ailing for a

twelve months and had spent a large

portion of his time in the city of

Montreal and in the city of

Quebec.

He was born in London, England, about

forty-five years ago and came out

with his parents at an early age to the

country. He settled in Belleville. His

father was some years M. P. for North

Hastings, a very strong and prominent

Conservative and a most pronounced

Orangeman. Mr. Benjamin was educated

at Belleville and Toronto and in 1861 took

the degree of B. C. L. at McGill College.

He was a partner of the Hon. J. C. C.

Abbott for some years, but afterwards

started for himself and gained a high

reputation as a commercial and legal

advocate. His principal cases were those

of Butters v. H. A. Allan, H. A. Allan

vs. Butters for \$50,000 damages, McIntyre

vs. Fortin and others. He took in Mr.

Brown a partner.

Mr. Benjamin was married nearly nine

years ago, in Philadelphia, to Miss C. C.

Grande Ligne, Que., a sister of the late

Mrs. A. McNider. They have only one

son about seven years of age. His mother

will live in Belleville and feel the loss of

her favorite son very much, in fact she is

not expected long to survive him. Mr.

Benjamin had seven brothers, one now in

business in this city and others in the West-

ern States.

His sufferings at the approach of death

were very great, and the death struggle

was long and terribly painful to witness.

[Mr. Benjamin's appointment as Q. C.

was announced on the day preceding his

death.—Ed. Int.]

Without a Home.

Elizabeth Whitlaw, who has been

and again committed to the County Jail

for vagrancy, was released from the jail

this morning. Elizabeth is a tidy

looking woman, without friends or

money. Being advanced in years, she has

no where to look for shelter. She applied

to the Police Magistrate for commitment,

and was sent up for 30 days.

With the necessary papers, presented her-

self to the gaoler, and was locked up.

Light Receipts.

One load of peas was offered on the mar-

ket yesterday. It was the only kind of

grain that has been offered for some

time. Mr. Downey stated to a reporter to-

day that there was but little grain in the

elevator to go forward at the present

time.

Two hundred thousand bushels of barley

have been shipped by rail since the first

of January to New York, Philadelphia and

Baltimore markets.

Open Meeting.

The Busy Bee Society of the Holloway

Street Church gave the first of a series of

open meetings, in the basement of the

church last evening. The attendance was

large, and the programme, which consisted

of readings, recitations, dialogues and

singing, was well carried out. The Society

intends to give an open meeting every

month.

Opening Their Rooms.

The Reform Association formally opened

their new rooms in the Ashley Block last

evening. They have been handsomely

fitted up. Addresses were made by Messrs.

S. B. Burdett, M. P., Dr. Mallory, M. P.,

J. M. Ferris, ex-M. P. P. and H. Ashley.

Another Unfortunate.

The remains of an infant were found in

the English burying ground, Brockville, on

Sunday. The dead child had been carefully

placed in a small box and buried in

the snow. The box revealed it to some

boys. The coroner and police hurried

to the scene.

Shooting Out of Season.

Two brothers living near Waller's Bay

were being guilty of spring duck shooting.

The company broke up at a

reasonable hour. The evening was heavily

enjoyed.

Last Hits.

The last tribute of respect was paid to

the remains of the late Robert Post-

master, this afternoon. The funeral was

largely attended by the prominent business

men of the city and the members of the

County Orange Lodge, which met to-day.

The service was held at the residence of

John W. Johnson, John Brennan, Theo. Donnelly,

D. N. Demill and H. Yeomans.

After a Drift Sheet.

A delegation went to Ottawa last night

to urge upon the Government the need of

provision in the estimates for a drill shed at

Belleville for the 15th Bat. The deputa-

tion was composed of Col. S. S. Lader,

Major T. C. Lader, Capt. Wm. N. Ponton

and Capt. J. R. Hall. The delegation

was accompanied by Major Biggar and

Major Pope were to have gone but were

detained.

EASTERN VESTRY MEETINGS.

The Christ Church Vestry Adjourns

for Two Weeks.

There was a representative and harmoni-

ous gathering at the St. John Church Ves-

try meeting last evening. The financial re-

port showed the Church out of debt, the

treasurer having been successful in raising

last year, besides a number of improve-

ments having been made on the church

building.

Mr. Buchanan was appointed Rector's

Warden and Mr. Johnston People's

Warden. Mr. J. W. Brown was appointed lay

delegate to the Synod for the next three

years.

St. Thomas Church.

There was a large attendance at St.

Thomas's vestry meeting.

A satisfactory financial statement was

presented. Mr. J. P. C. Phillips was

Rector's Warden and Mr. T. B. Vrege

People's Warden. Messrs. Geo. J. Sherry

and Q. McNider Auditors.

The report offered to accept a less rate of

interest on the Grier investment, viz. 5

instead of 8 per cent, and asked that the

By-law regarding this investment, \$2,400,

passed in 1863 be registered to provide

against the loss of the entire book.

A motion embodying the spirit of the offer

and request was adopted. The organist's

salary was increased \$100 per annum; the

ladies and gentlemen of the choir were

thanked for their services, and the Wardens

were authorized to make and disburse

notes as may be necessary for carrying on

the building of the Sunday School rooms.

As a mark of the feelings of loyalty to

the Queen, and as an expression of the

sense of the many blessings that have been

vouchsafed to the nation and country dur-

ing the reign of Victoria, the Rector and

Church Wardens were authorized by the

vestry to purchase a set of solid silver com-

munion plate, the cost not to exceed \$100.

CHRIST CHURCH.

The annual vestry meeting of this church

was held last night in the vestry of the

church at 8 p. m. A good representation

of the congregation was present. The

Rector, Rev. E. W. Sibbald, presided. The

report of the Church Wardens was read:

Contributions \$977.02, new rents \$657.40,

other contributions about \$300. The building

fund account showed that \$419.32 had been

collected and expended on the tower of the

church. About \$300 was provided by the

Ladies' Aid Society and expended in car-

peting and embellishing the interior of the

church. The Rector referred to the amount

contributed during the past four years, and

stated that over \$6,000 had been paid to

liquidate liabilities, and to complete the

church, &c. This was over and above cur-

rent expenses of the church.

The following officers were then elected:

People's Church Warden, Mr. W. A. Hume;

Rector's Church Warden, Mr. Francis

Wallbridge; Dr. James, Vestry

Clerk; Irvine Diamond and F. S. Wall-

bridge, Auditors.

Lay Delegate to the Synod, Mr. J. Earl

Hume.

It was decided by resolution that the

vestry should meet the first Monday even-

ing of every month, to consider the finan-

cial standing of the church, and look after

the proper working of the envelope system

of contributions.

The Sunday School financial statement

was rendered by the Treasurer, Mr. H.

Simpson, showing that the school is in a

prosperous financial condition.

A letter was also read from the Rector,

offering to accept of the sum of \$1,50

Act Association is about to establish

associations in each municipality to enforce

the observance of the law.

A team of drowned horses have been

found off the Trent River near Campbell-

ford. They were harnessed and attached

to a pair of whiffletrees. They belonged to

Mr. Owens, and were found two miles from

where they went under the ice.

The receipts of the village of Campbell-

ford for 1886 were \$7,108.22, disburse-

ments \$6,844.92.

L. O. Titus has opened a law office in

Truro.

A mechanic's institute building to cost

\$6,000 is proposed in Orrville.

The son of Rev. J. M. Grey, Sterling, had

the bone of a leg broken on Thursday

while at play at school.

Farmers in Northumberland County are

at their spring ploughing in some localities.

There are indications of a boom in build-

ing operations in Campbellford this year.

The Rathburn Co.'s mill at Campbellford

is to resume work shortly. New coal and

lumber sheds are to be built on their prop-

erty.

Civic Committee.

The Public Works Committee met last

night, passed pay sheet No. 8, and recom-

ended the payment of J. L. Langham's

account for \$20.00. The petition for a

drain on Catharine street was laid over for

further consideration.

The Market Committee recommended

the payment of G. W. Fuller's account

\$14.25; Geo. Craig \$15.47; R. Purdy \$5.00;

A. E. Cornelius \$40.00; also that two high

gas burners be put in the meat market

corridor for use on Saturday nights, the

buthers to pay for the gas consumed.

Claiming Damages.

Foy Bros., soda water manufacturers,

have presented a bill to the Public Works

Committee, for \$24.00 for damages sus-

tained to their bottles by an upset on

Albion street. The accident happened on

March 1st, when the streets were a mass of

ice. The street has an embankment where

the tip over occurred. It is claimed that

the absence of a rail at the side of the road

resulted in the damage to the sled, and

breakage of the bottles. The account was

presented to the City Solicitor.

English Sparrows.

English sparrows are being killed off in

Albany at a great rate. Since they ap-

peared in the market there, seventeen days ago,

one dealer has sold 1,700 at 37 cents a

dozen. A boy shot eight in one afternoon.

They go to make a dinner, it is said, will

be necessary to give prizes for their exter-

mination in Canada in a few years. They

are becoming so numerous as to overrun the

country.

WEDNESDAY, APRIL 19, 1887.

BIENNIAL SESSIONS.

The Toronto correspondent of the *Kin*

card *Review* says: "Again the city is

about for biennial sessions of the

houses. All the Toronto delegates, with

the exception of the *Globe*, are in favor

of such a move being made, and of course

one expects the *Globe* to say a word in

favor until the Monday morning market

movement in that direction. As a matter

of economy alone, the scheme is well

worth the trying. It is an apparent fact

that of late years the business transac-

tion of the House has been getting smaller by

degrees and beautifully less, and there is

nothing specially noteworthy calling for

annual sessions. Even if the scheme of

biennial sessions were considered a

step, the House could very well dispense

with one session out of the four. There

are some ninety members in the house,

and each draws \$500 per session and mil-

lions, and this alone would be a great argu-

ment for taking into account the amounts dis-

bursed for sessional writers, printing, etc.

Some such movement is well worth

trial, and would only be in accord with the

popular voice."

If this question could be approached

from a non-political standpoint, we have

little doubt that the experiment of biennial

sessions would be long to be tried. The

majority is not a party political one, why

cannot the people's representatives in the

Legislature put their heads together, take

the sense of their constituents and act

upon that opinion in the Assembly?

GRIT INCONSIDERATE.

The Montreal *Witness* thus forcibly

rebukes the gross inconsistency of its

party in Ontario: "The Province of Onta-

rio, through the mouth of its political lead-

ers of both parties, but principally of the Lib-

eral party, which have been in Ontario for

at Ottawa has, has over and over again

complained bitterly that she is the milch

cow of the Dominion, and that the Province

of Quebec, by means of the unfair subsidy

system, got an undue proportion of the

money distributed among the Provinces, and

not only that, but that she had demand-

ed and received still more for her political

support of the Conservative Government.

Yet the Province of Ontario is found to

be the province of the Conservative party

made for the purpose of securing still better

terms."

LORD LANSDOWNE AS A LAND-

LORD.

We fully endorse the following from the

Monday Times: "The Marquis of Lan-

sdown having had to resort to the dis-

grace of ejecting some Irish tenants for

non-payment of rent, the Marquis of Lan-

sdown proposes to come to Canada to pur-

sue his Government-General. The sympathy

of Canadians with Irish suffering will not

lead them to condone abuse of a land-

lord. It is not likely to do so.

The logical connection between un-

avoidable eviction and an attack on the

landlord is doubtless quite clear to Mr.

O'Brien, but he must excuse Canadians if

they are too dull to see the justification

in his attack will rest."

EDITORIAL BRIEVITIES.

The *Globe* gently urges the Government

to endeavor to settle the fisheries ques-

tion by offering to the United States recip-

rocal trade. The notice is not absurd,

and, coming from a journal which a few

weeks ago denounced "commercial gold-

smugglers," cowardly and disloyal.

The London *Free Press* remarks:

"The Port Hope *Globe* (Grit) speaks of

the establishment of a factory in that town

as a 'coerced prize.' All, yes, but what

have the Grit party ever done to these

'coerced prizes,' to the country? Their

'coerced prize' is free trade, but they

can't get it."

We thought the Grits had a horror of

'tall chimney,' at which they have men-

aced of late the most magnificent smelter,

as a Edward Blake.

The *Globe* argues that Canada is "pro-

foundly interested" in the Home rule

question. If Irish Home rule is in

Canada had no vote the *Globe's* interest

would be of the most laughable character.

"O'pose not mind, sinking down to rest.

With heads too low, too mild, or too soft.

Armstrong, when he wrote these lines,

gave good scientific advice. Had our

people suffered from dyspepsia in some of

its many forms. Life becomes a burden,

and business worries and annoyances.

The *Golden Medical Discovery*, invented and

prepared by Dr. Pierce, is an effective remedy

for indigestion. By Druggists.

Political Jottings.

Petitions have been filed against the

elections in the following constituencies: East

Belleville, Richmond and Wolfe, Stanstead,

Dixie, N. B., Hallowell, South Shore, and

Kennedy and York, N. B. A cross petition

has been filed in the South Shore con-

stituency. The Public Works report that

during the past four years there were more

public works undertaken than were com-

pleted during the fifteen years from Con-

stitution in 1867.

The National Policy and Coal.

No better evidence need be adduced of

the enormous advantages of the National

Policy to the coal mining industry of this

country, than by comparing the sales for

1876 with those of 1886. These were as

follows:

North Scotia (tons) 279,000 338,700

Upper Provinces 10,000 10,000

N. B. and P. E. I. 10,000 10,000

Newfoundland 10,000 10,000

United States 88,400 66,000

Other countries 20,116 12,102

Total 387,516 436,802

The above figures establish the following

facts:

1. In the eight years of the National Pol-

icy our coal sales have just about doubled.

2. Our coal sales in the upper provinces

have increased nearly seven fold in the

past eight years, and now amount to 360,000

tons, or more than half of the total sales

of the country.

3. Our coal sales in the United States

RETRIBUTION.
BY "THE DUCHESS."

"Grant, my poor boy, do not talk so wildly. Forget this girl, think now of what is the best thing for you to do."
"I have thought of that," said the girl, "and I have decided."
"What is it?"
"I am going to marry you, darling," she said, faintly.
"You are joking, darling," he said, "I am not joking."
"I am serious," she said, "I am serious."

for a long time, consumed with it, and
completely cured. Her husband thinks it
is no more to be given to any one else.
Even Japan and China dealers keep in stock
and sell it. The Liver Pills, the world's best
purgative, dyspepsia, indigestion, and
headache really yield to them. 20 pills
at a dose, the worst cure.

Sore Eyes
The eyes are always in sympathy with
the body, and afford an excellent index
of its condition. When the eyes become
weak, and the lids inflamed and sore, it
is an evidence that the system has become
disordered by scrofula, for which Ayer's
Sarsaparilla is the best known remedy.

Cured
My eyes are now in a splendid condition,
I am as well and strong as ever.

ONTARIO LEGISLATURE.

THURSDAY, April 19.

Hon. G. W. Ross moved that hereafter

there be morning sessions, commencing

at eleven o'clock, and that at 1 p. m. the

Speaker leave the chair until the question

being put.

RESPECTING POLICE MAGISTRATES.

Hon. Mr. Mowat moved an amendment

to the bill respecting the appointment and

proceedings of Police Magistrates, declaring

that the bill shall pay over to the County

Treasurer any fees or emoluments received

by any person or persons, unless the Legis-

lature shall otherwise determine the dis-

position of the same.

The amendment was carried, and the

bill read a third time.

CONCERNING SCHOOL TAXATION.

Hon. G. W. Ross moved an amendment

to the Act respecting Public Schools, to the

effect that where the Public School and

the Separate School rates are different, if a

parent or guardian, and the owner of the

land shall have to pay the amount that

he would originally have to pay as owner.

The amendment was carried, and the

bill read a third time.

THE SUFFRAGE ACT.

The House went into committee on the

Attorney-General's bill for further improv-

ing the law.

Mr. Mowat moved the amendment of

the Act respecting the office of Sheriff

by the insertion of the following clause:—

"The Lieutenant-Governor may, at any

time, in his discretion, remove the Sheriff

from office, and may, at any time, appoint

one or more persons to be Sheriff of the

County of York, and another to be Sheriff

of the County of York, and another to be

Sheriff of the County of York, and another

to be Sheriff of the County of York, and

another to be Sheriff of the County of

York, and another to be Sheriff of the

County of York, and another to be Sher-

iff of the County of York, and another to

ONTARIO LEGISLATURE.

Wednesday, April 20.

Mr. Fraser moved the third reading of
his bill to amend the Factories Act. On
Mr. E. P. Clarke making the statement
of the city which he wished to make certain
representations in opposition to the clause for
the employment of boys under 12 and girls
under 14 to pick fruit for the coming fac-
tory, the bill was allowed to stand. By a
result of 11 to 10, the bill was passed. The
labor leaders, who it is understood, gave
Mr. Clarke to understand that the city uni-
versity was opposed to the clause, stated
that these representations were not made to
the Committee of Public Works, and the bill
will now go through. Mr. Clarke's bill
was evidently placed in a false position.
The bill incorporating the village of Tri-
bury Centre was considered in committee
and reported, as was also the bill to unite
McGill and Woodstock College with the
University of Toronto. On motion of the Min-
ister of Education, the same was passed.
The bill, H. 100, was increased to
\$700,000.

Mr. Fraser moved that in the opinion
of the House it is inexpedient that the
labor of convicts confined in the Central
prison should after the expiration of existing
contracts, in that, he be let out on their
hire to any corporation, firm, or private
person. He said that practically this was
provision as existing in the Dominion Peni-
tentiaries Act of 1883. As yet no
definite system of labor had been adopted
by the Dominion Government, and the
place of the contract system, which was
still a moot question. The demand
for the abolition of the contract system had
come from the labor classes, who thought
the convict labor had competed with them.
The difficulty of employing convict labor
had been felt in the States, and the system
varied in different States. He ex-
plained the features of the contract system,
and said there were two contracts in
existence at present in the Central Prison.
The first was a contract with the
Dominion Penitentiaries Act of 1883. As yet
no definite system of labor had been adopted
by the Dominion Government, and the
place of the contract system, which was
still a moot question. The demand

ONTARIO LEGISLATURE.

FRIDAY, April 22.

On the order for the third reading of Mr.

Gibson's (Hamilton) bill to amend the As-

essment Act.

Mr. French moved that the clause in-

creasing the exemptions in income to \$700

be struck out.

Mr. H. E. Clarke seconded the motion.

Mr. E. F. Clarke opposed the motion, on

the ground that the working classes had

positioned for the increase of the exemp-

tion.

The House divided and the amendment

was lost. Yeas 23, nays 60, on the follow-

ing division:

Yeas—Bishop, Blewett, Byth, Clarke,

H. E. (Toronto), Craig, Gresham, Gresham,

Drury, F. F. French, Graham, Hamer,

The bill was read the third time.

Hon. Mr. Mowbray moved the third read-

ing of the bill for further improving the

law.

Mr. Meredith repeated his former pro-

test against that part of the bill providing

for a division of the office of Sheriff of

York. He held that the proposed divi-

sions should be dealt with in the same

manner as the Registrar's and Divi-

sion Court's office had been dealt with.

A part of the fees by means going back

to the people. He moved the following

amendment:

"That this House do adopt the policy

with regard to the fees of Registrars of

Deeds and Clerk Division Courts that in

order to prevent the payment of excessive

compensation for the services rendered a

proportion of the fees of those offices

which will leave ample remuneration for

the holders of those offices to be returned

to the people; that the House recognize

that policy as sound in principle, and in

opinion that it should be extended to the

office of Sheriff; that by section 4 of the

bill it is proposed to divide the office of

Sheriff of the County of York, the fees of

which are admitted to be a high and ex-

cessive income to the occupant of it, and by

doing so to give to the holders of the new

offices the money which, according to the

said principle, would and ought to be paid

into the treasury of the County of York

by the County of York (that is to say, the

County of York) and that the House be

pleased to pass the said bill with the

BELLEVILLE, WEDNESDAY, APRIL 27, 1887.

"SAUCE FOR THE GOOSE."

The Grits, pseudo-sympathizers with the home rule agitation in Ireland are not disposed to show any consideration for the million and a quarter of the people of Ireland, who are opposed to the establishment of an Irish Parliament, and who are not content to pay tribute to Great Britain without representation in the Imperial Parliament, as was proposed by Mr. Gladstone's bill. An example of the unfriendliness of the Grits in this regard was given by Mr. Macdonald, of Huron, in his speech in the Commons, in which the Grits reports him as saying:

In reply to Mr. O'Brien's assertion that if Home Rule was granted to Ireland the Irish Protestants would never submit to it, Mr. Macdonald asked if it was possible that the super-Orange Tories would not submit to the law? He said that the Parliament, if such laws did not, exactly suit them.

This same Dr. Macdonald and a large number of the party to which he belongs have professed to sympathize with the Nationalists in Ireland in refusing to submit to "laws of the House of Commons," "did not exactly suit them." In support of this agitation there have been assassinations, murders, wounding, killing and maiming of cattle, boycotting and other crimes and misdemeanors, including the "plan of campaign," the whole constituting a complete system of terrorism throughout the greater part of the country and a defiance of all law.

On the other hand, the Irish opponents of home rule have never been guilty of any crimes beyond what may have occurred in rows or riots that have arisen from the unusual excitement of the times; and even in such cases they have not always been the aggressors. They have not, in defence of their institutions which they hold dear and the legal restrictions which they regard as necessary for the safety of their persons, property, their civil and religious liberty, which they have purchased by their ancestors nearly two centuries ago under William of Orange, pursued towards those who were assailing their cherished institutions the methods which have been so freely adopted by the home rulers; they have not invoked the dagger of the assassin, the shot-gun or the bludgeon of the moonlighter, the knife of the cruel mutilator of dumb animals—in a word, they have not resorted to threats or coercion against individuals. They have, however, often, in public assemblies, protested against the whole scheme of an Irish Parliament with all the force of which their ablest leaders are capable, and so far, least, the great majority of the empire are with them in sympathy.

And yet the Grits of Canada, whilst professing to sympathize with the Nationalists because they are opposed to laws which "did not exactly suit them," have been urging the passage by the Imperial Parliament of laws which most certainly would not "suit the Nationalists," would deny them the right of protesting or of agitation on behalf of what they conceive to be their rights.

The reason for this shameful inconsistency is, however, so plain that he who runs may read.

EDITORIAL BRIEVITIES.

It is understood that Postmaster General McLean has a scheme under consideration for the establishment of a parcel post system between the United States and Canada. Such a scheme, if carried out liberally, will be one of the greatest boons that could be conferred on the public. The limit imposed by the present law is altogether unsatisfactory.

An Ottawa correspondent states that the labor organizations are making a dead set on Parliament this year. A number of petitions for legislation in their interests have been presented. The legislation asked for is a workshop regulation act, the prohibition of Chinese emigration, an employer's liability act, an act regulating the grievances that may arise between employer and employee, and manhood suffrage.

We trust that the City Council will not lose sight of the subject of sewage, which must of necessity be acted upon in the near future.

The bill introduced by Mr. Davin respecting local government in the North-West Territories, proposes to elect the three districts of Alberta, Assiniboia and Saskatchewan shall form a Province of the Dominion, with a Lieutenant Governor, Executive Council and Legislative Chamber, the seat of Government to be at Regina, and the House of Assembly to be composed of 24 members.

Mr. T. H. McGuire, Q. C., of Kingston, has been appointed to fill the vacancy in the Supreme Court of the North-West. Mr. McGuire is a able lawyer and is the only Roman Catholic on the Supreme Court bench. The appointment is a good one and will give general satisfaction.

The World's correspondent at Ottawa states that the prospects of a large voluntary immigration this year are of the brightest. There is no reason to suppose, any, but the advertising Canada is already beginning to bear fruit.

"He Never Settled Again."

No "hardly ever" about it. He had an attack of what people call "biliousness," and he was impossible. Yet he was "smile and smile, and be a villain still," still he was no villain, but a plain, plain, honest man, that deserves of a remedy such as Dr. Pierce's "Pleasant Purgative Pellets," which never fail to cure biliousness and disordered or torpid, dyspepsia and chronic constipation. Of druggists.

The insurance blue book shows that the net cash premiums received by Canadian companies during 1886 for fire policies was \$1,717,710; the amount of the policies taken during the year, \$1,343,806; the amount at risk on December 31st, was \$142,688,145; and the losses paid during the year \$239,361. The net cash premiums received by British companies was \$3,429,012; amount of policies taken during the year \$4,040,101; and losses paid, \$338,164. The net cash premiums received by American companies was \$309,913; amount of policies taken during the year \$4,097,381; and losses paid, \$184,145. The total for the year of the three classes of companies are:

Canadian companies, \$1,717,710
American companies, \$309,913
British companies, \$3,429,012
Total, \$5,456,635

The life insurance statistics show that the premiums of the year for all companies doing business in Canada amounted to \$1,144,021; the amount of policies new taken up was \$357,147; the net amount in force at the end of the year was \$171,688, and the claims paid amounted to \$1,008,701. The increase in the amount of policies in force was \$141,244, and the loss of \$89,609, and the loss incurred during the year \$28,520.

In addition to the old returns, the assessment societies make returns for the first time. These show that the net amount in force was \$268,605; that the net amount in force was \$21,996,306; and that the claims paid were \$141,244. It thus appears that the total life insurance in force in Canada at the end of last year was \$181,300,000.

Banknote Correspondence.

Several parties have recently been fined at the Bancroft Police Court for unlawfully killing deer for the purpose of deer in their possession in the "close season," among whom were L. Amable Lale, \$10 fine; George H. Lale, \$10 fine; and Henry H. Lale, \$10 fine. Judgment deferred. Peter Parks, cash tender, and Daniel Varty \$10 and \$10, and a general feeling of this community appears to be that the senseless practice of killing these fine and useful animals must be stopped. Three other destructive agents against the deer were brought to account by Thomas Stanger in January, who last week destroyed three wolves and brought their scalps for the bounty. One of the skins measured six feet long and three feet wide. Stanger proceeded within rifle range of a fourth buck, such to his surprise, the rifle broke back and took a circuit over his head, striking him a severe blow on the face in its course. The effects of which were evident enough. It suggests that on the previous evening a quantity of wet snow lodged in the barrel and thus fired as hard; the wonder is that the gun did not explode.

The Newest on Wheels.

London, April 26.—The recent experiment of a volunteer cycle company is likely to develop great progress. Next week Aldershot will be the scene of a new shaped like a long racing boat, on which a dozen soldiers can sit in single file and pedal at the rate of 14 miles an hour, and can draw eight baggage wagons after them. This multiple is steered easily by one man, is affected little by rough roads and turns in less space than an ordinary horseman. It is an English invention and is not to be despised.

The extended and drowsy feelings, common to young time, indicate a sluggish condition of the blood, which may be remedied by the use of Dr. Williams' Pink Pills, most powerful, and, at the same time, most economical blood-purifier known.

A Bare Programme.

Two of the New Orleans Singers Married at Kingston.

The Kingston News, in its report of the New Orleans University Singers' entertainment in that city on Wednesday says: "Before the last piece was sung, the Rev. Mr. Spaulding, of the First Methodist Church, stepped upon the platform, and amid breathless silence, performed a marriage ceremony. The bride was Miss Carrie Wilson, and the groom, Prince Albert Thomas, both members of the company. The affair was a novelty, and as the participants in the marriage were in full view of the audience, the ceremony was watched with keen interest. When the last words were pronounced, making the couple man and wife, and her veil was lifted by the happy groom, several 'dues' and military gentlemen snatched their lips loudly, causing a laugh. The entertainment was closed with 'The Lord's Prayer,' which was shouted."

It is said that Mr. Edwards and Miss George will be married at Prescott. As there are four males and five females in the company, somebody sure is to be left. The last man will have the sympathy of his fellows.

Queen vs. Jay Bryce.

The Prisoner gets Two Weeks in the County Jail.

Jay Bryce was in Court yesterday afternoon to answer for seducing Mary Wright. Strenuous efforts have been made by parties who are thoroughly posted in the case to induce the parents of the girl to withdraw their opposition to a marriage. Bryce is 30 years of age, and the girl is barely 16 but from appearance she would be taken for 17 or 18. She is not what can be called a handsome girl, but has a ruggedness and a look of practical intelligence that is without its charms. Bryce has a true lover's anxiety to marry the girl, and she is in a discomfited mood over her parent's obstinacy. Bryce pleaded guilty, and saved the girl from going into the witness stand. The Magistrate sentenced him to two weeks in the County Jail, and his sentence was light, as the offender had endeavored to mend his error by eloping with the girl with honorable intentions, but was captured before the ceremony was performed. There are eight children in the Wright family. The central figure in this case is the third child.

Bridge Street Bounding School.

The entertainment given in the Sunday school at Bridge Street Church, last night by the orchestra and primary class of the school, was enjoyed by all present. The young gentlemen composing the orchestra are to be congratulated on the proficiency they have attained, and it was a pleasure to see them perform. The Professor J. H. Lee, who has felt that in their performance he had "scored one more" to his credit. The primary class presented over thirty items on the programme, all of which evinced careful training by Miss M. J. Scappellato, their teacher, and aptitude on the part of her eighty pupils. Professor Canfield contributed three solos, which as usual were well received.

Grand Truck Improvements.

In a letter to Mr. Thos. Ritchie, President Board of Trade, Mr. Hickson, Manager G. T. Ry., says that it is the company's intention to add another story to the present stone station, which will make an additional room for the company's use. At the same time otherwise improve the accommodation to the public in the shape of better waiting rooms, &c. It is to be hoped that the company will soon find it to their advantage to make this a dining station, which would be highly appreciated by the trading public.

DISBURGING CATHARTIC.

A postman from Montreal writes: "For years I have been greatly annoyed by Catarrh. I tried every remedy, but without success. I was cured by the use of Ayer's Cathartic. It is the most powerful, and at the same time, most economical blood purifier known."

The Queen's Jubilee.

What's going to be Belleville's celebration of the Queen's Jubilee? Other places have already held their public meeting to discuss the question and have come to a decision. Some are waiting for our "city fathers" to take the initiative, while perhaps our "city fathers" think some of our public spirited citizens should first move in the matter. Anyway, let something be done at once.

Improving the Street.

The street car company are evening up the street on either side of their track with gravel. The rails protrude a few inches above the surface, of the street in many places, which made crossing the track with vehicles unpleasant and hazardous. The work done by the company was timely.

A Broken Gas Pipe.

A gas pipe on Foster Avenue which had been damaged by frost burst last night, and the escaping gas became ignited. There was considerable trouble experienced before the light was extinguished.

Personal.

Mr. W. W. Pope returned home this morning after a two weeks' absence in New York and Philadelphia. He says the season at the latter place is a month ahead of the Canadian season.

Expiring Laws.

Mr. Alex. Robertson, the popular member for West Hastings, has been elected Chairman of the Commons Committee on expiring laws.

NASAL BALM.

The only nasal balm that will immediately cure Cold in Head and permanently cure Catarrh, Hay Fever, &c.

Police Record.

Four tramps were sheltered at the cells last night.

Those Jones, complained of as a nuisance for scattering straw along the street, was dismissed.

Division Court.

Division Court was in session to-day, before Judge Lyster.

Court of Chancery.

FIRED ON BY THE BLOOD.

A Detachment of the North-West Mounted Police.

Shot at by Hating Indians. Strong Details. The London Standard, April 28.—A special dispatch from Medicine Hat says:—Corporal Birtle's report from Dunsmuir to night of the 26th inst. is that the Indians to-day his party were fired upon by Blood Indians. After firing the Indians rushed themselves, and as the police detachment was small they did not pursue the Indians. Superintendent Macdonald, of Maple Creek, notified Inspector Macdonald to start in the morning with as many men as he could muster in pursuit of the Blood Indians. The Bloods have given very bold and have been a number of cattle in the vicinity.

pain entirely removed and her respiration unob-
 structed. **SHILOH'S COUGH AND CONSUMPTION** CURE
 is a cure by a guarantee. It is the only Consump-
 tion Cure. For sale by R. Templeton
 O. Bortle, of Manchester, Ontario Co., N. Y.
 I am a married man, and have been afflicted
 for Dr. Thomas' Electric Oil. I have
 asthma for eleven years. Have been obliged
 to quit my work for the last four years. I
 can now sleep soundly all night
 without a cough. I have gained weight
 feather bed, which I had not been able to
 previously use. I am now well.
 Torpid liver, the cause of untold suffering
 misery, restored to its normal condition by
 use of **Woods' Liver Cure**. Also cured
 my rheumatism. **Woods' Kidney** All drugs
 and medicine failed to cure me.
YOUNG MEN suffering from the effects
 of early habits, the result of ignorance
 or folly, find the **Woods' Great Peppermint**
 and **Woods' Great Kidney** Cures
 exhausted; also **MINDLE AGENT** and
MEN, who are broken down from the effects
 of the above, find the **Woods' Great**
 the consequences of youthful excess, need
 and read **M. V. LUDON'S Treatise on Diseases**
 of the **Woods' Great** Cures. It is a
 address on receipt of two cts. stamps. Ad-
